

Intermediate/Senior Level Biologists / Ecologists

We are looking for intermediate/senior level biologists / ecologists; individuals who want to expand their professional experiences and grow their careers. Opportunity for advancement will be in your hands.

Employer: Balanced Environmental Services

Location: North Vancouver, B.C.

Job: Biologist/ecologist – intermediate-senior level

Term: Indeterminant full time

Workplace: Limited hybrid – mostly in-office

Job focus:

- Aquatic biology/ecology
- Environmental assessment
- Regulatory review and compliance
- Fish and wildlife habitat enhancement
- Project management
- Business development and growth

Duties will include:

- Participation in and/or leading environmental field surveys/assessments
- Preparation of environmental survey/assessment reports, and regulatory review submissions
- Environmental monitoring
- Assisting with project implementation and management
- General support for company activities

Basic Qualifications (required):

- BSc or diploma in biology/ecology, environmental studies, or equivalent in related field
- CAB registrant status or eligibility and willingness to acquire status: RPBio, RBTech, ABT, or BIT
- Local environmental assessment experience
- Knowledge and experience with local regulatory review processes
- Report writing experience
- Proficiency in computer skills, including word processing and data management
- Valid BC Class 5 Driver's Licence
- First Aid Level 1 certification or ability and willingness to acquire certification
- Ability and willingness to work in the field, in rough conditions, including rough terrain, over water, and inclement weather
- Ability and willingness to work irregular hours and out of town

Desired Qualifications:

- Local environmental monitoring experience
- RAPR Primary QEP certification
- SVOP certification
- SCUBA Diver or Commercial Diver certification (WSBC and/or DCBC SCUBA)
- Proficiency in AutoCAD and GIS

The company

Balanced's office is situated in North Vancouver. Balanced and our associated business units, Foreshore Technologies and Ocean Tech Constructors, are a tight-knit group of companies. We have been providing a broad range of environmental, general marine, and commercial diving services in British Columbia and elsewhere since 1984. In addition to competitive compensation and benefits, we offer continuing professional development (CPD) and career development opportunities.

The successful candidate will have good working knowledge of local environmental regulations and their application to a wide variety of projects in development, industrial, and government settings. The successful candidate will be an effective communicator, proficient in preparing and reviewing reports to meet regulatory and client requirements, and have the drive to take on project management and build the business responsibilities.

We look forward to hearing from qualified applicants. Please send your résumé and expression of interest covering letter by e-mail to Balanced (bruce@balanced.ca), with "Biologist / Ecologist Position" in the subject line. We thank all applicants for your interest; we will only contact those selected for an interview.
