WHO WE ARE

ECORA IS AN ENGINEERING, ENVIRONMENT AND NATURAL RESOURCE CONSULTING COMPANY

We are committed to delivering quality services to our valued clients. Our incredible team of engineers, environmental scientists and resource professionals work together to provide clients with a synergistic offering of services unique to the industry. We are built on the foundation of our core values: commitment to our people, our relationships, our community and our environment. For more information about Ecora, please visit our website <https://ecora.ca/>.

THE OPPORTUNITY

Ecora is looking for two Contaminated Site Specialists to join their expanding Environmental Sciences group on a three-month temporary full-time basis, with the potential to turn into a permanent position for the right candidate. Location is negotiable and please note, travel is required to Fort St. John for shifts (10 and 4 or 14 and 7) for the duration of the position.

Ecora is committed to creating and delivering exceptional quality service to our valued clients and provides consulting services to provincial government, municipalities, First Nation communities, resource industry companies, architects, developers, and contracting firms throughout British Columbia.

RESPONSIBILITIES

- Leading a field team conducting environmental assessment, remediation and reclamation work in Northeast BC for the summer season;
- Contributing to technical project design plans and reports; and
- Monitoring and tracking project budgets, schedules and safety elements.

QUALIFICATIONS

- A Professional membership in good standing with one of the parent organizations of the Contaminated Site Approved Professionals Society;
- A minimum of four years of full-time experience (or the part-time equivalent) working in contaminated site assessment and remediation;
- The ability to write accurate and organized technical reports and compelling proposals;
- The ability to work under pressure, prioritize effectively to manage schedules and deadlines;

- A history of working efficiently on independent tasks, and considerately and collaboratively when in a team setting;
- A strong knowledge of Microsoft Office applications;
- Excellent interpersonal and communication skills; and
- A Valid Class 5 driver's license (or equivalent) with a clean driving record.

NICE TO HAVES:

- Experience successfully representing environmental, traditional, and other interests of First Nation communities;
- Familiarity working on upstream and midstream oil and gas sites in Northeast BC; and
- Fluency in a First Nation language of Western Canada.

REWARDS OF WORKING AT ECORA

- Work for one of the fastest growing firms in Canada and one of the most exciting full-service professional consulting firms in Canada;
- Competitive salary;
- Paid annual vacation;
- Paid annual sick days;
- Comprehensive group benefits including extended health and dental coverage;
- Group RRSP match program;
- Ability to earn a bonus based on company success and employee contribution;
- Opportunities for professional growth and development; and
- Reimbursement of applicable professional membership dues.

Ecora is an equal opportunity employer and stays true to its mission by ensuring it leads with its values. Diversity, equity, and inclusion are core to our mission, Ecora strives to create a workplace that reflects the communities we serve and where everyone feels inspired and empowered to bring their authentic selves to work. We encourage, support, and celebrate the diverse voices of our team members.
