I am a member of the APB: Yes No

If no, please list name of parent or relative who is an active member of the APB

University currently attending _____

Program currently enrolled _____

Degree to be completed _____

Association of Professional Biology Scholarships

Scholarships

The APB funds up to \$2,000 scholarships each year. The selection committee reserves the option to create graduate and undergraduate categories, and provide one scholarship for each, if the applications warrant this segregation. This is intended to provide undergraduates with an equal opportunity to compete for a scholarship with their graduate peers. Moreover, the Board may expand the scholarship program if additional funds become available any given year.

Eligibility

Applicants may be:

- the son or daughter, spouse, niece, nephew, granddaughter or grandson of a member in good standing of the APB entering the third or fourth year of an undergraduate program in biology or the second year of a diploma program in biology, or a closely related area as specified in the College schedule
- a student member of the APB entering the third or fourth year of an undergraduate program in biology or the second year of a diploma program in biology, or a closely related area as specified in the College schedule
- a Biologist in Training of the APB returning to university to pursue a higher degree
- a Registered Biology Technologist in Training of the APB pursuing an undergraduate or higher degree
- an R.P.Bio, in good standing with the APB returning to university to pursue a higher degree
- an R.B.Tech. in good standing with the APB who is pursuing an undergraduate or higher degree.

Applicants must be enrolled in an academic program, similar to those in the College membership guidelines, that leads to a degree or diploma that will be used as a practicing biology professional. Applicants will be eligible to re-apply for the scholarship in subsequent years. However, an applicant will only be eligible to receive a scholarship up to a maximum of two years.

Application Deadline

The final date for applications for the scholarship shall be July 31 of the year in which the student will be starting her/his second year (diploma) third or fourth year (degree) or entering/continuing a post-graduate program.

Application Instructions

To apply for this scholarship, you must provide the following information, which should be assembled in a folder before mailing.

1. Complete the application form and send to registrar@professionalbiology.com.
2. Include a short personal statement which tell us about yourself. Please expand on the following:
 - interests;
 - activities out of school time; and
 - your goals for the future.
3. Include a current resume.
4. Arrange for and include two letters of reference.
5. Mail original transcripts to the APB office.
