

Association of Professional Biology
Serving Biology Professionals since 1980

300-1095 McKenzie Ave, Victoria, BC V8P 2L5 - Tel 250.483.4283 - Fax 250.483.343 - info@professionalbiology.com

Dear members,

The Association of Professional Biology is seeking your professional biology membership support!

Support for our members begins when they are students. Each year, the APB awards deserving students scholarships up to \$2000. The **APB Scholarships** are awarded based on demonstrated excellence, leadership, and future potential toward the biological profession. This year, the **APB Scholarships** will go to students with names of potential future employers!

Through the **APB Scholarship Program** the APB wants to recognize BC's consulting firms willing to give back and pave the way ahead for a deserving up and coming Biology Professional!

-  For as little as \$50, your firm can contribute to the education and development of future Professional Biologists and your own potential employees.
-  Your firm's name and logo will be included in the list of sponsors supporting the deserving student recipient through APB's media (APB website, APB e-News Letter) and at the APB Annual Awards Banquet.
-  Your firm's contribution will create awareness among biology students throughout the province of future employers and their community business practices.

Please consider an in-kind contribution as an investment opportunity in the future of Professional Biology in BC and recognition of your firm's name as a valued sponsor, educator, employer, and BC community leader!

To make a contribution to **the APB Scholarship Program** please see attached form.

Thank you for your consideration!

APB 2019 Scholarship Program
